

ODYSSEAS KARASTERGIOU

COMPUTER SCIENCE | FRONTEND ENGINEER

Profile

Passionate Frontend Engineer with experience in building scalable and user-friendly web applications. Skilled in modern JavaScript frameworks, including Vue.js and React.js, with a strong background in working on large-scale projects. Adept at collaborating in agile environments, problem-solving, and delivering high-quality code.

Experience

● 2021 - 2024

ARX.NET

External Frontend Developer for OPAP S.A

- Developed and maintained frontend applications using Vue.js, enhancing website functionality and user experience.
- Collaborated with cross-functional teams in an Agile environment, contributing to major projects, including the expansion of the main site with three additional games.
- Worked with two-week sprints, managing and completing tasks in Jira while ensuring high-quality deliverables.
- Created and executed Unit Tests in Bamboo and Azure to maintain code quality and reliability.
- Took ownership of new pages and solo projects, leading development from concept to deployment.
- Gained valuable experience in a fast-paced, enterprise-level environment while being loaned as a frontend developer to OPAP S.A., a leading Greek gaming company.

Projects

2025

NBA STATS SCRAPER

A web application that scrapes and displays NBA player statistics with user authentication and interactive data visualization.

2025

VUEJS WORK ASSIGNMENT

A frontend developer assignment focused on building a Joke Collection.
